Cautionary Note to U.S. Investors Concerning Estimates of Measured, Indicated and Inferred Resources: RCR publishes mineral resources based on standards recognized and required under securities legislation where listed mining and exploration companies make their exchange filings and uses the terms “measured”, “indicated” and “inferred” mineral resources. U.S. investors are advised that while such terms are recognized and required under foreign securities legislation, the SEC allows disclosure only of mineral deposits that can be economically and legally extracted. United States investors are cautioned not to assume that all or any part of measured, indicated or inferred resources can be converted into reserves or economically or legally mined. We recommend that US investors consult Securities and Exchange Commission Industry Guide 7 – “Description of Property by Issuers Engaged or to Be Engaged in Significant Mining Operations” for further information about the use of defined terms and the presentation of information included in this report.
